Visit of the HR/EUSR in BIH
Valentin Inzko

School Competition 2008/2009
Welcome to this month’s edition of Forum, and a busy one for the Press Office, with several high profile visits, a PIFWC Operation, the EUFOR School Competition and to finish off the month, the visit of the High Representative, European Union Special Representative in BIH Valentin Inzko.

The highlight of the month must surely have been the School Competition which culminated at the Army Hall in Sarajevo 27 March. Who could have expected over 3,000 entrants from children throughout BIH? If you haven’t seen already, the winning entries can be found on the euforbih.org website. These entries will then be on display at the Turkish Cultural Centre and then possibly taken to Brussels for the European Open Day on 9th May.

The visit of the HR/EUSR was again, a highly successful visit with a large media presence. I will be handing the mantle of Spokesperson over to Lt Cdr Mandy McBain in early April and I hope you can continue to give her just as much support as I have received from staff not only within the Headquarters, but throughout BIH.

To leave a message, just remember that Forum is your magazine and will only to be a worthy informative read, as long as we continue to receive the stories, articles and photographs from you.

**EUFOR Operation Against Mladic Target**

Early on 12th March EUFOR ALTHEA commenced a search operation at the residence of Dušan Todic in Milosa Obilica Street 9 Banja Luka. Todic is a former military associate of Ratko Mladic the Bosnian-Serb military leader indicted for war crimes by the International Criminal Tribunal for the Former Yugoslavia (ICTY).

The mission was conducted at the request of the ICTY to look for information which could assist the ongoing search for the former General. It was conducted as part of a wider regional strategy which has seen several similar actions taken against potential support network members in Serbia.

As with previous operations against Persons Indicted For War Crimes (PIFWCs) EUFOR forces worked in co-operation with NATO and the RS MuP.

These operations are legally based upon the mandate of the ICTY, EUFOR and NATO under the relevant UN Security Council Resolutions and the General Framework Agreement of Peace in Bosnia and Herzegovina.

Bratunac is a town and municipality located in eastern Bosnia and Herzegovina. The easternmost point of Bosnia and Herzegovina is located in the municipality of Bratunac which lies in the Republika Srpska entity of BIH. In 1381, the name Bratunac is mentioned for the first time because of the direct road through Bratunac from Bosnia to Serbia. At the time, Bratunac was composed of five houses and a population of roughly 30 people. In 1927, Bratunac became an independent municipality for the first time.

On Saturday, 14th March, then COS EUFOR, BG Wundrak, travelled into the South-West of BIH and paid a visit to the RCC1 (NLD) LOT House Livno.

After the helicopter landed near the Monastery, the General was given a hearty welcome by the CDR, OF-2 Bert Van Duren and his staff. After the General was briefed about current issues and developments, to be followed by a short tour through the building, he met with the staff, military and local employees as well.

According to the personnel the General showed to have a clear view about the future of this country and provided them with good and stimulating ideas to complete their mission successfully. It was also highly appreciated that he showed to be interested in the personnel as well.

On 5th March 2009, LOT Bratunac was prepared to host the EUFOR Key Leader Training (KLT). In addition to a LOT house briefing, a visit to the memorial site in Potocari for the Bosniak war victims in the area of Srebrenica was scheduled. Unfortunately weather conditions did not support the planned helicopter transport of the KLT members and therefore these two certainly very interesting items of the schedule had to be cancelled and the participants spent the day in the area of Sarajevo with an alternate programme.

LOT Bratunac nevertheless conducted the prepared wreath laying ceremony in Potocari. A delegation was formed consisting of Austrian LOT members and a Greek, as well as an Austrian MP patrol. The MP was in the area with the original task to escort the visiting KLT. After the short ceremony of remembrance the officials of the memorial centre thanked LOT Bratunac and appreciated the appropriate and suitable character of this proof of sympathy for the fate of the victims.

Growing together

A long time contact of LOT Bijeljina, Mr. Letic, age 41, invited LOT Bijeljina to see his team’s games. What is exceptional in his work is he coaches two multiethnic teams. The teams are formed of children from Janja area, 10km South of Bijeljina. Janja is the biggest multiethnic village in Municipality of Bijeljina. About 30% of players are Bosniaks and rest are B-Serbs. Mr. Letic is former professional volleyball player and is B-Serb of his ethnic background but would consider himself more as Yugoslavian. Mr. Letic started to play volleyball when he was in High School. His first coach was Bosniak.

On Thursday 6th February the boys’ team had a match with Volleyball Club Radnik from Bijeljina. The game was in a sport hall of Bijeljina Public Security Center. On Friday 7th February the girls’ team had a match with a team from Glavicice in Janja.

Teams of Mr. Letic hold their practices in the “Mesa Selimovic” Elementary School of Janja. The teams were formed together with the school. LOT Bijeljina went to see the practices on 11th February and donated volleyballs from the Finnish contingent to the teams. LOT Bijeljina interviewed four players from the teams.

All of them told LOT Bijeljina that there have been no ethnical problems in the team. Their parents don’t talk about wartime and in school they are not taught much about the war. They don’t talk about the war with their friends. They see EUFOR presence necessary and think LOT guys are cool.

8th March in Camp Butmir

International Women’s Day (IWD) is marked on March 8 every year. It is a major day of global celebration for the economic, political and social achievements of women. Started as a political event, the holiday blended in the culture of many countries (primarily Russia and the countries of former Soviet bloc). In some celebrations, the day lost its political flavour, and became simply an occasion for men to express their love to the women around them in a way somewhat similar to Mother’s Day and St Valentine’s Day mixed together. In others, however, the political and human rights theme as designated by the United Nations runs strong, and political and social awareness of the struggles of women worldwide are brought out and examined in a hopeful manner.

In EUFOR the International Women’s Day was celebrated and has covered all the aspects related to the event. In particular it was a way to express to all the women in EUFOR/NATO Base the appreciation for their dedication and professionalism that they daily show carrying on their activity. Flowers scent was spreading all over the Base.

Medal Parade in EUFOR is a significant event for all military personnel joining the experience of the ALTHEA Mission. It is not just a gathering of people and a tinkling of medals, but actually a time when people become aware that they have participated to a unique international experience.

One such Medal Parade was held in Camp Butmir on 24th March and it was of a particular significance for the Albanian contingent of EUFOR. Albanian Prime Minister Sali Berisha, after visiting various BIH institutions, joined the medal parade and awarded the Albanian contingent.

Mr Berisha also added: “I would like to thank COM EUFOR for his strong support of Albanian troops in the ALTHEA Mission. The Albanian government will continue to contribute troops under the EU flag in BIH which shows our commitment to the security and stability of the region.”

This ceremony usually involves those who are close to their end of tour. Everyone involved can proudly state that they have contributed to ALTHEA to provide a safe and secure environment to Bosnia and Herzegovina.

St. Patrick Day

The Irish Contingent celebrated their National Day, St. Patrick’s Day, along with their Medal Parade on Friday the 20th March 2009. It is customary in Ireland, and indeed all over the world, that parades are held in honour of Ireland’s patron saint and Bosnia and Herzegovina was no different. Each year the Irish Defence Forces holds a parade in each military post and distributes shamrock to the personnel on parade.

This year, in addition to each member receiving the traditional shamrock, personnel on their first tour of duty with EUFOR BIH were presented with their Althea Medal by Lt Col Billy Harrington, Irish SNR, and Lt Col Brian Monahan, Commanding Officer 9 Irish Contingent. There was a large number of representatives from other Contingents who enjoyed the parade and even more so the Irish coffees at the conclusion!

That evening the Irish hosted a reception in the Millenium Bar where it seemed most of Camp Butmir and all the Irish Diaspora in Bosnia and Herzegovina attended. There was Irish stew and a sample of Irish music enjoyed; along with an Irish jig performed by a couple of leprechauns: their antics on stage may be questionable, but they did manage to raise € 350 for a local charity.

After much dancing and banter, craic agus ceol, the evening ended with the sense that all had truly enjoyed themselves.

The first St. Patrick’s Day parade took place not in Ireland, but in the United States. Irish soldiers serving in the English military marched through New York City on March 17th, 1762.

St Patrick has been credited with converting pagan Ireland to Christianity in the 5th Century. A three-leaf green plant called the Shamrock was used by St. Patrick to explain Christian teaching. It has also come to symbolise the luck of the Irish.
The northern Bosnia and Herzegovina town of Brcko, which lies on the country’s border along the River Sava across Croatian town of Gunja, witnessed a special occasion on the 8th March 2009. The district celebrated its 9th anniversary at the House of Culture in the centre of Brcko and the following cocktail party was held in Hotel Jelena.

EUFOR was monitoring the event with LOT Brcko and RCC4, which is holding the responsibility in the area. The Commander of the RCC4, Lt Col Stefan Kirchebner, LOT Brcko Commander Maj Harry Herranen and his Liaison Officer Team were present.

All together, there were close to five hundred (500) VIPs and invited guests inside the stylish theatre hall. The Supervisor of BD, Mr. Raffi Gregorian (USA) was present. Also the main representatives from Brcko, both entities, the BH Parliamentary Assembly, the highest representatives of the all Religious Communities were in the event. The media paid also attention to this festive occasion with many journalists and photographers.

The occasion started in the House of Culture with the new Anthem of BH, which was respected by standing and with applause. The Vice President of the BD Assembly, Ivan Krendelj opened the function by his speech. He underlined, that BD, after nine years, has finally become a multiethnic place of tolerance where international and local businesspersons can see good opportunities for their investments.

The President of the BD Assembly, Mirsad Djapo said in his speech, that BD has been developed during his previous four years mandate as functional as it right now is. He added that during nine years 200 million Euros were invested into BD economy by foreign investors and 75 million Euros by local businessmen. During that time approximately six thousand citizens were employed.

The Mayor of the BD, Dragan Pajic said in his speech that he would not comment on the results of the work of previous BD Government but economy must continue its development in future too. He underlined, that team work is the first requirement for success of new BD Government.

The Supervisor of BD, Mr. Raffi Gregorian, stated in his speech, that the BH Parliamentary Assembly will finally adopt amendment on permanent status of BD. He added that an adoption of that amendment will speed up the process of closure of the Office of the High Representative (OHR) and transform it to the European Union Special Representative (EUSR).

Gregorian regretted that COM EUFOR, Major General Stefano Gastagnotto, could not participate the gathering, but mentioned the importance of EUFOR presence in the area. He also added his appreciation for the active role of the COM EUFOR, who started his tour of duty three months ago and has already visited Brcko twice.

Brcko is the seat of Brcko District, an independent unit of local self-government created on the territory of Republika Srpska and the Federation of Bosnia and Herzegovina. The Brcko District (BD) was created by the Final Award in 1999 and the district was placed under international supervision. The Brcko District was formally inaugurated on 8th March, 2000.

Mr. Gregorian underlined that adoption of this amendment enables full access of BD Government to the Constitutional Court of BH in relevant issues that BD can face with entities and state in future.

The classical piano composition was performed by Dzenana Sehanovic from Brcko. Between the speeches the international opera singer, mezzo-soprano Jadranka Jovanovic and other opera singer Oliver Njego from Belgrade performed magnificent international opera compositions.

The ninth Anniversary Day of BD was organized in a very professional way. The performers were incredible and the atmosphere both in the House of Culture and the Cocktail Party were festive but pleasant and cosy. Participating for this kind of occasions is very important for the collaborative relationships and to meet with counterparts in high level.
